If the payment has not been made, please urge Orion to pay them immediately. Subsequent shipments will only be delivered after Orion pays Synta in Taiwan. Thanks!

Dear Peter,

This message is written under thoroughly consideration, and is our genuine thought to your company.

In May we had a meeting in the USA, I had expressed my thought that we were worried about the cash flow in your company if you bought Hayneedle. We are surprised to know that Orion still want to buy Hayneedle. Since it seems that you still want to carry on this project, so we have to protect ourselves to avoid any possible risk and stop your credit amount immediately.

According to the previous bad bankrupt experience of Tasco company, Synta had lost a lot. We have to make this decision, from now one we will not give Orion any credit amount. Please wire us all open invoices immediately. Before we receive all these wire payments (nearly 500k us dollars), we will not make any shipments. Also we do not think there is any need to negotiate it once more face to face.

David told me that if Orion really buys Hayneedle, this will be the beginning of hazard, we could not trust Orion's credit any more.

We will have to require that for any future shipment, the payment should be paid in advance.

Michael
